Este artigo é uma versão do meu discurso por ocasião da inauguração do edifício próprio da Sociedade Brasileira de Física (SBF) em 1998. A partir da análise dos Boletins e Atas de reuniões, procuro discutir aspectos relevantes da atuação da SBF nos últimos trinta anos. Espero que este trabalho preliminar consiga encorajar historiadores a escrever uma história completa da SBF.

This paper was addressed at the inauguration of the new headquarters of the Brazilian Physical Society (SBF) in 1998. On the basis of the Bulletins and meeting reports, I try to discuss relevant aspects of the society in the last thirty years. I hope this preliminary work may encourage historians to write a more complete history of the SBF.
